Notice Of Application San Diego Gas & Electric Company's Request To Change Rates For Gas Transportation (Cost Allocation Proceeding) Application Filing A.25-09-014

Why am I receiving this notice?

On September 30, 2025, San Diego Gas & Electric Company (SDG&E®) filed its Cost Allocation Proceeding (CAP) Application (A.25-09-014) with the California Public Utilities Commission (CPUC) to revise its rates for natural gas transportation. If approved, the proposed change in rates will begin on January 1, 2027, and conclude on December 31, 2029.

Why is SDG&E requesting this rate increase/decrease?

The CAP is a proceeding in which SDG&E updates how its costs of providing gas service are divided amongst its customer classes and determines the transportation rates it charges customers. The costs in this CAP include gas transmission, gas distribution, and customer-related costs. While the division of costs is determined in the CAP, the dollar amounts of the costs are presented and determined in a separate CPUC proceeding. SDG&E also forecasts how much gas its customers may use (i.e., demand) and the prices used to calculate various components of the rates. These forecasts have an impact on customers' rates.

How could this affect my monthly gas rates?

SDG&E's dollar amount of costs to be recovered in 2027 rates are not determined yet. If SDG&E's rate request is approved by the CPUC, the average non-CARE residential monthly bill using 24 therms per month would increase by approximately \$4.92 or 7.0% per month in 2027, if we keep the dollar amount of costs in 2027 at the present 2025 level.

(Continued inside)

Customer Class	Present Rates (¢/therm)	Proposed Rates (¢/therm)	¢/therm Change (¢/therm)	% Change
Residential (Core)*	213.1	235.9	22.8	10.7%
Commercial/ Industrial (Core)*	93.9	107.4	13.5	14.4%
Commercial/ Industrial- Distribution Level (Noncore)**	40.6	53.0	12.4	30.6%
Electric Generation- Distribution Level Tier 1 (Noncore)**	44.8	40.4	-4.4	-9.9%
Electric Generation- Distribution Level Tier 2 (Noncore)**	33.3	33.1	-0.2	-0.7
Transmission Level Service - EG***	24.9	27.4	2.5	9.9%
System Total	98.4	98.4	0.0	0.0%

*Core customers generally use smaller quantities of gas and the utility purchases their gas.

**Noncore customers are generally large gas users who purchase their own natural gas supplies for SDG&E to transport.

***Transmission Level Service is for noncore service on the Local Transmission System from the SoCal Citygate.

Note: For purposes of isolating rate and bill impacts presented to the impacts generated directly by the CAP proposals, present September 1, 2025 tariffed rates have been normalized.

How does the rest of this process work?

This application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SDG&E’s application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome.

The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.
