1 **CHAPTER 7**

2 **PREPARED DIRECT TESTIMONY OF JON A. BAUTISTA**

3 **(REGULATORY ACCOUNTS – SDG&E)**

4 **I. PURPOSE**

5 The purpose of my direct testimony is to provide regulatory accounts witness to the
6 California Public Utilities Commission (Commission) to discuss SDG&E's existing Preliminary
7 Statement's tariff provisions for SDG&E's regulatory accounts which are to remain in effect
8 unless and until such time modifications are proposed and adopted by the Commission. The
9 exception would be where a termination date is contained in a regulatory account Preliminary
10 Statement.

11 **II. OVERVIEW**

12 The rates authorized in Decision (D.) 24-02-009, SDG&E's 2022 Cost Allocation
13 Proceeding (CAP), became effective January 1, 2024. As authorized by the Commission,
14 SDG&E filed Advice Letters (AL) 3392-G and 3392-G-A in February 2025, that contained the
15 revised rates and charges that implement the demand forecasts, cost allocations, customer
16 charges and rate designs adopted by D.24-02-009. The Commission granted approval of
17 SDG&E AL 3392-G and 3392-G-A on February 25, 2025.

18 In cost allocation proceedings prior to the 2024 CAP, SDG&E undertook the exercise of
19 forecasting regulatory account balances and presented them in testimony. However, those
20 forecasts provided in the cost allocation proceedings were superseded by SDG&E's annual
21 regulatory account balance update filing as such regulatory account forecasts reflect the latest
22 available information. To avoid any confusion in the presentation of customer rate impacts of
23 SDG&E's Cost Allocation Proceeding (CAP) proposals, consistent with the CAP 2024
24 proceeding, I am not sponsoring any regulatory account balance forecasts in this CAP.

1 SDG&E is not proposing to modify any of its regulatory account Preliminary Statements,
2 or to modify the Annual Regulatory Account Balance Update process described previously, as
3 part of this application for this cost allocation period.

4 This concludes my prepared direct testimony.
