Location	Microsoft Teams Meeting		
Start time	Fri 8/11/2023 	12:00 PM ▾	<input type="checkbox"/> All day event
End time	Fri 8/11/2023 	1:00 PM ▾	

CAUTION! EXTERNAL SENDER - STOP, ASSESS, AND VERIFY

Do you know this person? Were you expecting this email, any links or attachments? Does the content make sense? If suspicious, do not click links, open attachments, or provide credentials. Don't delete it. Report it by using the **REPORT SPAM** option!

All—Thanks for providing your availability to continue discussions around IOU wood management practices. Please let me know if anything changes or if we've overlooked any participants.

Again, as the previous call was focused more on recycling and disposal practices, we've listed some additional questions below to consider in advance.

1. Does your utility have a safety standard or official list of controls in place for wood management operations?
 - a. Is there an operational standard or any specific governance documents related to wood management?
2. Discuss your respective program(s) for the management and/or hauling of large-diameter wood from private property and agency lands, including size of wood, distance from road or structure, etc.
 - a. Is large-diameter wood management limited to specific vegetation management programs, locations/zones/regions (i.e., HFTD?) or land ownership?
 - b. Is your wood management work conducted by the same team who conducts your pre-inspection and tree work, or a different team?
3. Specific to large-diameter wood, how is your utility's wood management offering communicated to customers and other stakeholders? (i.e., proactive, upon request, etc.)
4. Is wood management work performed on T&M or at unit cost?
5. Can you share any details around cost recovery strategies for wood management?
